UNIVERSITY OF BOTSWANA

DEPARTMENT OF COMPUTER SCIENCE

COURSE NO: CSI315

LAB 2: INTRODUCTION TO CSS.

1. Create a webpage that has an art piece known as Spectrum V, by Ellsworth Kelly. In order to achieve this, you will need to create table cells that have different colors. Using the box model, you will play with the border, padding and margins to create a picture similar to the one below. You can choose a color palettes at https://coolors.co/palettes/trending. Click on the palette of your choice and pick the HEX codes for the colors to use.
    - Add H1 element containing the words “Spectrum V, by Ellsworth Kelly”
    - Add CSS to reposition the art piece using relative positioning.
    - Duplicate your Html file, add CSS for absolute positioning
