UNIVERSITY OF BOTSWANA

DEPARTMENT OF COMPUTER SCIENCE

COURSE NO: CSI315

LAB 8: PHP MySQL CRUD EXERCISE

1. **Using Forms to populate, update, delete and retrieve records in MySQL database:**

   - In Lab 5 (Task 3), you created a table called test to add two fields of type varchar called id and name, of length 15 and 50 respectively.
   - You also used the phpMyAdmin to populate the table with the names and student ID's of at least ten students.
   - Write a PHP script called manage_database.php that you could use to populate, update, delete and retrieve records from table test.
